

ST-M858 Fingerprint Access Controller

Features:

SECUtec ST-M858 is a new fashioned Fingerprint Plus RFID Card Access Control System. Best for standalone and networked installation with 10/100 Mbps TCP/IP module or Rs485 port. The user Capacity is 1000 fingerprint and record capacity is 50,000 records. The controller used the fast algorithm with optical fingerprint scanner.

Specifications:

Identification Methods	Fingerprint, Password & RFID Card (Optional)
Fingerprint Sensor	Optical 500dpi
Users Capacity	1000
Records Capacity	50,000 records
Capture Angle	$\pm 90^\circ$
Identification Speed	≤ 1.0 second
Display	Yellow backlight Monochrome Display (122 x 32mm)
Ports	Wiegand 26/34 bit input, Door relay output, Anti-submarine function, Alarm relay output, Gate magnetism switch input, Wiegand output, Switch button input, Bell output port.
Keypad	Touch 15 keys and Doorbell Button
Language	English (extendable to multi-language)
Communication Interface	USB 2.0, RS232/485 and TCP/IP (Optional)
Access Control Functions	Access Controller and Time Zones
Software	SecuTime Time Attendance & Access Control software by SECUtec Inc.
Power Supply	12V DC
Supports	Intelligent update function
Dimensions	L x W x H (mm)
